

# Wendover Community Survey ~ We Want Your Input

## Regarding Healthcare Needs For You and Your Family

Nevada Health Centers is seeking Wendover community input regarding you and your family's primary healthcare needs. We have developed a short survey to collect important information to help us best address your needs.

**The survey will open on Friday, June 9 and will remain open until Monday, June 19.**

We encourage you to take a few minutes to share your input. You can participate in the survey through the link posted below:

Since 1999, Nevada Health Centers has been serving family healthcare needs of the Wendover community with a primary care health center located at 925 Wells Avenue. The health center is open Monday through Friday and accepts most private insurance, Medicaid, Medicare, Women's Health Connection and Nevada Check-Up and offers a sliding fee schedule based on income for patients who do not have insurance. Services provided at the health center include family medicine, pediatric care, women's health services, preventative health and wellness, care for minor illnesses and much more.

*Thank you for taking time  
to share your valuable input.*
