BUDGET MESSAGE

2019-2020

CITY OF WEST WENDOVER

The fiscal year 2019-2020 budget for the City of West Wendover includes an ending general fund balance that is 13.52% of general fund expenditures. This decrease from current year projected ending balance is due primarily to the increase to employee wages as required by current labor agreements.

West Wendover's economy is primarily tourism-based, making the city subject to economic fluctuations as consumers spend their discretionary income. Therefore, the City of West Wendover's governing council and city management have adopted a conservative budget philosophy, allowing the fund balances to increase in prosperous years, and conservatively utilizing the fund balances as needed in other years. The governing council and city management uses this conservative budgeting approach when estimating revenues, and expenditures.

Projects related to our streets, including storm drainage improvements, have been underway and will be a focus during the next few years. Currently, the City is starting design work for a new fire station which will be completed in conjunction with a land acquisition from BLM to facilitate the development of the City's Downtown area in the near future.

The city and county gaming taxes and charges for services have remained constant and increasing the last several years. There is growth in new businesses in West Wendover with a new mini-mall project completed that offers several new businesses such as an auto care service center and car wash, a shipping depot, a dollar store, a dry cleaner and a pizza restaurant. The large Las Vegas liquor store chain which constructed a 25,000 square foot liquor store, the largest in northern Nevada, has plans to construct an adjacent business pad for development of more small retail at the same location including a restaurant. With marijuana now being legal in Nevada, the City has approved and is in process of issuing licensing for medical, recreational marijuana retail facilities as well as large cultivation and production facilities. These applicants have already received their conditional certifications from the State.

Approximately 30 acres of land purchased from BLM has been designed and developed as an initial industrial park for the community. The City has developed the property providing it with street and utility infrastructure making it immediately available for development and the City continues to actively pursue industries to locate therein with light industrial and warehousing type uses. This will assist the City with its continued efforts of economic diversification including the addition of job opportunities and income growth for the community. With the industrial park in place, the City has positioned itself for solid diversification growth. The industrial park currently is home to a recent FedEx shipping/transportation facility and a vehicle tow facility in addition to interest related to the Long Canyon Gold mine which is now in full operation. Two marijuana companies which include dispensing, cultivation and production will be located on approximately 13 acres of the industrial park.

The Port of West Wendover, which is a long-term mixed use industrial/aeronautical project and part of the City's diversification strategic plan continues to proceed forward. The project includes the acquisition (at no cost) of an initial 6,000 acres of property which was part of the former Wendover Field properties of World War II. The property received environmental clearance from the U.S. Air Force in September of 2014 which resulted in its release back to the Bureau of Land Management. The City continues to be diligent in completing the acquisition process now working through the Bureau of Land Management conveyance process which will result in the property being deeded to the City in the near future.

The City is experiencing growth in the residential housing market as the economy continues to improve from the previous recession. Since November 2018, the City has issued 12 permits for new home construction with two general contractors now working on these residential projects. Additionally the Long Canyon Gold Mine is now in full operation and is completing its environmental EIS process with the BLM for Phase 2 which will expand the existing open pit as well as take the mine underground. Such expansion will continue to provide production for the mine for decades to come ensuring positive growth in our area. This provides a continued positive outlook on our housing market over the next 10 to 20 years.

Our outlook at the City long-term is positive and optimistic. The enthusiasm associated with the recent and planned growth of our City is shared not only by our City Officials, but our citizens as well. We feel the future is full of promise and look forward to a brighter national and state economy that will have a positive effect on our community.
