COVID-19 (Coronavirus)

The data contained in this dashboard is based on information provided by the NV DPBH (confirmed cases) and the COVID-19 Hotline and includes all counties served by the hotline. Data is updated Monday - Friday. For questions, e-mail or text covid19@elkocountynv.net or call (775) 748-0204.

The COVID-19 hotline serves Elko, Lander, Eureka, White Pine, Pershing and Humboldt counties. The data on this slide is the aggregate of all calls to the hotline as well as confirmed positive results for Elko County.

*Presumed positive means that a person had mild to moderate symptoms consistent with COVID-19 OR was a close contact of a confirmed case. They are advised to self-isolate to reduce potential exposure and prevent community spread of the virus. In some cases, patients are referred to a higher level of care for further evaluation and testing.

*Presumed negative means that a person did not have symptoms consistent with COVID-19.

FOR IMMEDIATE RELEASE

ELKO COUNTY COVID-19 CASE UPDATE – 7/14/2020

Elko County is reporting eight new positive cases and five recoveries.

We are strongly encouraging everyone to do their part in reducing the spread of the virus by resuming social distancing practices, staying home if you are not well or if you are a close contact of a confirmed case, and wearing a face covering while in public or around others who are not in the same household.

Close contacts of a confirmed case are required to self-isolate for 14 days from the date of exposure. A close contact is defined by the Centers for Disease Control (CDC) as any individual within 6 feet of an infected person for at least 15 minutes. Individuals who have tested for COVID-19 but are awaiting results are required to self-isolate until a negative result is received – even if the individual is not symptomatic.

The breakdown of total confirmed cases is as follows:

- 275 confirmed cases
- 138 active cases
- 136 recovered cases
- 1 death

All new cases are PCR confirmed tests. Each case is unique to an individual and does not include cases which have had more than one positive test.

DATE COUNTY						
CASE #	NOTIFIED	DATED TESTED	GENDER	AGE	LOCATION	CONTACT
269	07/14/20	7/8/2020	MALE	20-29	WEST WENDOVER	CONNECTED TO A PREVIOUSLY CONFIRMED CASE

Due to medical privacy requirements and to protect their identity, no further information about the case will be released.

The COVID-19 Hotline is available to assist those who are experiencing symptoms consistent with COVID-19 or for general questions. The hotline can be reached at 775-777-2507 or by texting or e-mailing covid19@elkocountynv.net Monday through Friday from 9am to 5pm (closed from noon to 1pm for lunch).

In addition, Dr. Bryce Putnam encourages the public to help stop the spread of respiratory illnesses by taking personal accountability and practicing preventative measures such as

wearing a mask while in public and:

- Avoiding close contact with people who are sick. When you are sick, keep your distance from others.
- If possible, stay home from work, school, and errands when you are sick. This will help prevent spreading your illness.
- Covering your mouth and nose with a tissue when coughing or sneezing. Serious respiratory illnesses are spread by cough, sneezing or unclean hands.
- Washing your hands with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing or sneezing. If soap and water are not available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- Avoiding touching your eyes, nose, and mouth.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe. Remember to clean your cellphones.
- Avoid social gatherings in groups of more than 50 people.

People with COVID-19 have reported a wide range of symptoms – ranging from mild symptoms to severe illness.

Keep an eye out for symptoms that may appear 2-14 days after exposure to the virus. People with the following symptoms should reach out to their healthcare provider or call the COVID-19 hotline at (775) 777-2507 or text or email covid19@elkocountynv.net.

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle pain or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If you have any of these **emergency warning signs*** for COVID-19 get **medical attention immediately**:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake
- Bluish lips or face

*This list is not all inclusive. Please consult your medical provider for any other symptoms that are severe or concerning to you.

Call 911 if you have a medical emergency: Notify the operator that you have, or think you might have, COVID-19. If possible, put on a cloth face covering before medical help arrives.

Mental Health services are available in Nevada at this time. Rural Clinics Immediate Mental Health CARE Team can be reached at 1-877-283-2437 and are available to support adults in Rural Nevada who need immediate mental health assistance.
