CUMULATIVE POSITIVITY RATE

**1,913.20**

CASE RATE PER 100,000

The Cumulative Positivity Rate and Case Rate Per 100,000 data points are based on the Nevada Health Response dashboard. The methodology for calculating this data can be found at <https://nvhealthresponse.nv.gov>.

These metrics are important based on the newest plan, Road to Recovery: Moving to a New Normal, as they are used to evaluate the risk level of the particular county or city and determine the level of corresponding mitigation.

**FOR IMMEDIATE RELEASE**

## **ELKO COUNTY COVID-19 CASE UPDATE – 10/9/2020 REPORTING 11<sup>TH</sup> DEATH**

Elko County is reporting an eleventh COVID-19 death and the eighth death related to an outbreak within the skilled nursing facility. The individual was a female in her 80s who was living at Highland Manor at the time of her passing. We extend our heartfelt sympathies to the resident's family, friends and the community as well as to the staff at Highland Manor.

Elko County is reporting twenty-one new cases and six recoveries. Eight active cases are currently hospitalized.

Elko County, in partnership with Nevada Department of Emergency Management and Nevada National Guard, is providing free drive-thru COVID-19 testing on October 9, 16, and 23. Testing will be conducted at the Elko County Fairgrounds in the parking lot on the corner of Cedar and 13<sup>th</sup> streets. Register online at [bit.ly/elkocvtest](https://bit.ly/elkocvtest) to get through the line more quickly.

Medallus Urgent Care is also providing free COVID-19 testing to anyone who would like to test. Those who are encouraged to test include individuals experiencing symptoms consistent with COVID-19 and those who have been a close contact of a confirmed case. Walk-ins are welcome. Individuals may also call (775) 400-1510 or visit the telemedicine portal at [www.medalluselko.com](http://www.medalluselko.com) to schedule an appointment.

Under Emergency Directive 034, related to youth sports, adult coaches, managers, officials/referees, and team staff are required to test before the start of the season or resumption of athletic activity and is strongly encouraged every other week during a season. For more information regarding youth and adult sports, visit <https://nvhealthresponse.nv.gov/news-resources/governor-directives-and-declarations/>.

The breakdown of total confirmed cases is as follows:

- 1,067 confirmed cases
- 84 active cases
  - 8 active case(s) hospitalized
- 972 recovered cases
- 11 deaths

We encourage every member of the community to take extra care in preventing the spread of the virus by staying home if you are sick, wearing a face covering while in public or when social distancing is not possible, practicing good personal hygiene, and limiting social gatherings.

Each case is unique to an individual. Elko County has not had any cases where an individual has had a confirmed case which has been resolved and later tested positive again. Due to medical privacy requirements and to protect their identity, no further information about the case will be released.

In addition, Dr. Bryce Putnam encourages the public to help stop the spread of respiratory illnesses by taking personal accountability and practicing preventative measures such as wearing a mask while in public and:

- Avoiding close contact with people who are sick. When you are sick, keep your distance from others.
- If possible, stay home from work, school, and errands when you are sick. This will help prevent spreading your illness.
- Covering your mouth and nose with a tissue when coughing or sneezing. Serious respiratory illnesses are spread by cough, sneezing or unclean hands.
- Washing your hands with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing or sneezing. If soap and water are not available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- Avoiding touching your eyes, nose, and mouth.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe. Remember to clean your cellphones.

People with COVID-19 have reported a wide range of symptoms – ranging from mild symptoms to severe illness.

Keep an eye out for symptoms that may appear 2-14 days after exposure to the virus. People with the following symptoms should reach out to their healthcare provider or call the COVID-19 hotline at (775) 777-2507 or text or email [covid19@elkocountynv.net](mailto:covid19@elkocountynv.net).

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle pain or body aches
- Headache
- New loss of taste or smell
- Sore throat

- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If you have any of these **emergency warning signs\*** for COVID-19 get **medical attention immediately**:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake
- Bluish lips or face

\*This list is not all inclusive. Please consult your medical provider for any other symptoms that are severe or concerning to you.

**Call 911 if you have a medical emergency:** Notify the operator that you have, or think you might have, COVID-19. If possible, put on a cloth face covering before medical help arrives.

Mental Health services are available in Nevada at this time. Rural Clinics Immediate Mental Health CARE Team can be reached at 1-877-283-2437 and are available to support adults in Rural Nevada who need immediate mental health assistance. The Rural Mobile Crisis Response Team can be reached at 1-702-486-7865 and are available to support children and families for those under the age of 18. The National Suicide Prevention Lifeline can be reached at 1-800-273-TALK (2855).

Nevadans can visit <https://nvhealthresponse.nv.gov/> for up to date information in regards to COVID-19 in Nevada. Additional information is available from the Centers for Disease Control at <https://www.cdc.gov/coronavirus/2019-nCoV/index.html>.
